

DECLARATION OF USE OF NON-HARMFUL SUBSTANCES

For our articles:

All our leather products are manufactured in full accordance with the quality guidelines set out for the German furniture industry.

These state that leather should be manufactured in an environmentally friendly way and tested for harmful substances.

In particular, this means:

- No use of azo dyes •
- Use of fat liquors not containing any organochlorine compounds •
- Free of PCP, PCB, CFC, formaldehyde and chromium •
- Our articles are then finished using exclusively water based conditioning systems (i.e. solvent free) •
- According to German environmental regulations •
